Recovery and Reinvestment Act (Recovery Act) provisions:

1. All rules and regulations of the WIA apply, unless specifically exempted or preempted by Recovery Act provisions.
2. In accordance with the intent of the Recovery Act, funds must be spent expeditiously and effectively, with full transparency and accountability in the expenditure of funds. The Recovery Act provides more than an injection of workforce development resources into communities in need across the country. The significant investment of stimulus funds presents an extraordinary and unique opportunity for the workforce system to accelerate its transformational efforts and demonstrate its full capacity to innovate and implement effective One-Stop service delivery strategies. As states and localities plan how their One-Stop systems will make immediate use of the Recovery Act funds, ETA encourages them to take an expansive view of how the funds can be integrated into transformational efforts to achieve a new level of effectiveness throughout the public workforce system. In this system, the needs of workers and employers are equally important in developing thriving communities where all citizens succeed and businesses prosper. Successful implementation of the Recovery Act includes not only quick and effective provision of services and training for workers in need, but also leveraging changes in the system's basic operations to emerge as a strong, invigorated, innovative public workforce system capable of helping enable future economic growth and advancing shared prosperity for all Americans.
3. Recovery Act funds are intended to supplement, not supplant existing WIA Title I State formula funds.
4. None of the funds appropriated or otherwise made available in the Recovery Act may be used by any State or local government, or any private entity, for any casino or other gambling establishment, aquarium, zoo, golf course, or swimming pool.
5. Grantees and their subrecipients must have a Dun and Bradstreet Numbering System (DUNS) number and must maintain active and current profiles in the Central Contractor Registration (CCR).
6. Grantees will collect and report information as conveyed in upcoming Recovery Act reporting instructions to be issued by DOL. Currently Recovery Act reports are due by the State 10 days after the end of each calendar quarter. Regular monthly reports from the grantee will be required in accordance with current CORE reporting deadlines, with the addition of an additional interim report to be made so as to reach the state by the 3rd day after the end of each calendar quarter starting June 30, 2009.
7. The period of availability of funds for the local areas is from February 17, 2009 through June 30, 2010, and then subject to reallocation, in accordance with existing terms and conditions of the PY 2008 funding agreement. It is Congress' intent, as well as that of the Administration, that the majority of these funds will be utilized within the first year of availability.
8. This program is subject to the provisions of the "Jobs for Veterans Act" (JVA), Public Law 107-288 (38 USC 4215), as implemented by the Final Rule published on December 19, 2008 at 73 Fed. Reg. 78132. The JVA provides priority of service to veterans and spouses of certain veterans for the receipt of employment, training and placement services.
9. The Comptroller General, DOL/ETA staff, State staff, or any of their authorized agents may examine any records of the grantee or any subgrantees and may interview any officer or employee of the grantee or any subgrantees (sec. 902, p. H.R. 1-77).

10. Recovery Act Youth funds are expected to be heavily geared toward summer youth employment from May 1, 2009 through September 30, 2009. For those participants enrolled in summer employment, the only performance measure required will be the Work Readiness Performance Indicator. For any other youth activity, the regular youth performance measures will apply.
11. The age for youth, under this grant is expanded to include participants from 14 years old through 24 years old. All other WIA eligibility criteria still apply.
12. Funds are to be reported by type of expenditure, broken out as indicated on the reporting codes identified above.
- 2973 ARRA - In School Youth – To report costs of services to in-school youth. A maximum of 70% of the youth funds can be spent in this category.
